

CHIRAYU BABU JAYASWAL

Computer Engineering Student | Full Stack Developer | AI Enthusiast

✉ chirayujayaswal7@gmail.com | 🌐 github.com/Crusty-chirayu | 🔗 LinkedIn | 🌐 Portfolio

Profile

Fourth-year Computer Engineering student (VTU) with hands-on experience across the full stack, machine learning, and IoT hardware, focused on shipping AI-integrated products that solve real problems. Proven track record in hackathons and competitive programming (CodeWars), with a fast-learning, ownership-driven approach to building end-to-end software and embedded systems.

Education

Bachelor of Engineering – Computer Engineering
Visvesvaraya Technological University (VTU), India

2022 – 2026
Currently in 3rd Year

Technical Skills

Frontend	React, Next.js, Tailwind CSS
Backend	Node.js, Express
Databases	MongoDB, MySQL
Languages	Java (Intermediate), Python, C
AI / Machine Learning	ML Fundamentals, Face Recognition Systems, Gemini API, Prompt Engineering
Hardware / IoT	Arduino, Sensor-based Systems, IoT Fundamentals, Embedded Problem Solving
Tools	Git, GitHub, VS Code

Projects

CartIQ – AI Shopping Assistant

React, Node.js, MongoDB, Gemini API

- Built a smart shopping assistant that compares prices and tracks products using AI-powered decision making; **near production-ready**.
- Integrated the Gemini API to power intelligent product recommendations and buying insights.
- Designed and implemented full-stack architecture end-to-end – React frontend, Node/Express backend, MongoDB database.

Hotel Management System

Java, Swing

- Developed a full-featured GUI desktop application for end-to-end hotel operations management.
- Implemented bookings, room management, billing, and staff management with an intuitive interface.

Face Recognition System

Python, OpenCV

- Built a real-time face detection and recognition system using computer vision techniques.
- Applied ML fundamentals to train and evaluate a recognition model from scratch.

IoT / Hardware Experiments

Arduino, C, Sensors

- Explored software-hardware integration through sensor-based implementations for temperature, motion, and environmental monitoring.

Achievements & Certifications

- Participated in multiple hackathons, delivering rapid prototypes under time pressure.
- Active CodeWars participant with consistent competitive programming practice.
- NPTEL – Machine Learning (*In Progress, 2025*), with additional NPTEL certifications underway.

Soft Skills

Strong Communication • Team Collaboration • Leadership & Initiative • Fast Learning & Adaptability • Ownership Mentality • Product-Focused Thinking • Deep Problem-Solving • Debugging & Troubleshooting

Additional Information

Languages: English, Hindi, Nepali **Open To:** Internships, Freelance Projects, Collaborations, Open Source
